

Islamic Kabbalah  
By Shomit Sirohi

I. Quran and its Pensee in the Sense of Dialectical Forms

Imagine the pensee – a man in dense meditation and Quranic dirge.

II. Axiomatize this process and proceed – step by step

Form – the sets, and life.

III. Meditations to Begin

The weight of things and Urdu jargon.

Like editing cinema – start on a film by Sirohi and edit to Urdu jargon.

---

I. Reflection

II. Dense freedom

III. Modern Subjectivity is in a Man in Assertions – only in the Prophet – Modern Sirohi.

Just keep asserting the truth – love is protected by the lover because he is a Prophet, fuck this main kya kahoon bhai, it is a process which is proven, like walking, madarchod, kya intellect nikalein bhai is duniya mein, fucking hell, kya kahein.

Now Interpret – Law protects the lover in Quranic motifs of language, it is as dense as it is materialist, something Incomprehensible – Daniel.
